MAVEN CLUSTER TM

Laravel Developer

June 2020 - December 2020 (7 months)

Indore, Madhya Pradesh, India

Worked on the various Projects which is made on Restful Services which I'm making on PHP 7.2x and Laravel 5.7x MVC based web application.

Projects were:

1. NoShaadi: It's a dating app which has a distance logic, profile s1een logics, data-driven logics and all are made on laravel.
2. Fitness App: This is related to fitness track your needs and daily-to-day activities, Feed section where other people can see you feeds, nearby Gyms and much more.
3. OurJobFlow: This is a Job portal where a jobseeker come and search for a job and apply for a job.
4. AppsBuilder: This is a project which gives you details of your dream project and MVP of it.

apart from this, I've also used the middleware for the login user to get features and URL throttle.

Using Git Version controlling for the codebase.

Worked with the 3rd party API for Authorization of user for Login / Registration like (Facebook and Google).

BrandzGarage
Laravel Developer
January 2020 - May 2020 (5 months)
Pune, Maharashtra, India

Lov.Cash
